

A horizontal number line with tick marks labeled 1, 2, 3, 4, 5, and 6.

The image contains three technical drawings of a hexagonal nut:

- Top Left:** A perspective view of a hexagonal nut. It is labeled with GL for the height of the hexagonal portion and AG for the width across the flats.
- Bottom Left:** A cross-sectional view of the nut. It is labeled with H for the height. An arrow points to the internal thread, which is labeled "密封圈" (Sealing ring) in Chinese and "Sealing ring" in English.
- Right:** A perspective view of a hexagonal nut, similar to the one in the top left, but shown from a slightly different angle.

[illegible]

— 防护等级: IP68 (在使用O型圈的情况下)

- Degree of protection: IP68(with O-sealing)
